A Historic Afternoon with Dr. Nadine Burke Harris

Ten years ago, a visionary partnership between Center for Child Counseling and Leadership Palm Beach County sparked a movement that would transform our community's approach to childhood trauma and resilience. What began as a pioneering initiative to address Adverse Childhood Experiences (ACEs) has evolved into Palm Beach County's premier forum for advancing children's mental health and well-being.

In celebration of our 10th anniversary, we are honored to welcome Dr. Nadine Burke Harris — the pioneering force who transformed our national understanding of adverse childhood experiences (ACEs). Dr. Burke Harris's groundbreaking work has revolutionized the mental health profession's approach to childhood trauma, demonstrating how early adverse experiences shape the health and well-being of individuals, families, and entire communities.

As our distinguished keynote speaker, Dr. Burke Harris will visit Palm Beach County to share insights from her transformative research and clinical work, her scope of service as California's first Surgeon General, and highlight the ground-breaking work Center for Child Counseling is employing in our own region.

This long-anticipated personal appearance offers Innovation Circle partners and premiere-level sponsors an exclusive opportunity to engage with one of the most influential voices in childhood development and trauma-informed care.

A Decade of Progress, A Future of Promise

From its inception, Lead the Fight has catalyzed systemic change in how our community addresses childhood trauma. Your partnership at 10th Anniversary levels helps write the next chapter in this vital mission.
